# How do I select which schools are displayed in the graphs?

Created by Corey Tutewiler
Last updated Apr 04, 2016

School A	Select date	Year to date ⌄	Select school	All schools ⌄

If you are a School Administrator or a School Master, you will not have access to a **Select school** drop-down field, because you only have access to data for your school group. If you are a District Administrator or District Master, you can locate a **Select school** field near the top of the interface.

Select the drop-down arrow, then mark the checkboxes for all of the schools for which you want to view data. You can select a single school, multiple schools, or view data across all schools by selecting the **All Schools** checkbox.

When finished, choose the blue Apply icon, and the dashboard will immediately respond, showing results based on your selection.
